CORE COMPETENCIES

Project & Product Management

- Agile & Kanban (Trello, Sheets, LINE)
- Scope Management & MVP Scoping
- User Stories & Requirement Definition
- UAT, QA Testing & Bug Triage
- Value-Driven Milestone Prioritization

AI-Augmented Workflows

- Advanced Prompt & Skill Engineering
- AI Pipelines (Visual, Audio & Code)
- Rapid Prototype & Demo Generation
- Distributed LAN Multi-PC AI Cluster

Technical Systems Literacy

- Web Architecture (React, REST APIs)
- Cloud Platforms (Cloudflare, Supabase, Firebase)
- High-Speed Private Cloud NAS (SMB)
- Release Engineering (Inno Setup, Git)

Studio Operations & Compliance

- Budgeting & High-End IT Procurement
- Accounting Docs & FX Compliance (USD/THB)
- Cross-Functional Collaboration

EDUCATION

B.Sc. in Animation
Chiang Mai University (Dec 2015)

Technical Project Manager and Operations Lead skilled in integrating Generative AI to accelerate delivery across production software and digital media. Proven track record as Product Lead delivering a 100-game localized software catalog on nodnuattranslator.com and nurturing an engaged community of 7,000+ followers on Facebook. Adept at data-driven prioritization, pragmatic MVP scope control under tight deadlines, cross-functional facilitation, and architecting smart automated workflows that drastically reduce production lead time and costs.

Professional Experience

🏆 Grand Prix Winner (Best AI Short Film) — July 2026

Thailand International AI Film Festival (TIAIF 2026)

Awarded top Grand Prix honor for the AI short film *"The Stroke of Night"* (co-produced with Animation Renaissance), demonstrating world-class mastery in managing end-to-end generative AI pipelines, rapid prototyping, and storytelling under strict competition deadlines.

Founder, Product Lead & Release Engineer — 2022 - Present

NodNuat Translator Community (7,000+ Followers | 100-Game Official Catalog)

- **End-to-End Product Lifecycle:** Directed scope, translation pipelines, and milestone delivery for over 100 localized PC game titles on official platform **www.nodnuattranslator.com**.
- **Issue Triage & UAT:** Handled end-user bug reports, conducted root-cause analysis, distributed release candidates for user validation (UAT), and published regular changelog release notes to 7,000+ followers.
- **Data-Driven Prioritization:** Balanced project roadmap between high-engagement trending releases and complex technical milestones based on community demand and feasibility.

Operations Lead & Production Process Specialist — 2019 - Present

Animation Renaissance Co., Ltd.

- **Process Improvement with PM:** Partnered with Project Managers and creative leads to design and optimize studio production pipelines, accelerating turnaround for 3D and digital video deliverables.
- **Scope & Timeline Management:** Resolved crunch time bottlenecks by defining MVP deliverables, deferring non-essential features, and maintaining on-time client handovers without sacrificing quality.
- **Corporate Compliance & Accounting:** Streamlined corporate financial documentation, managed international wire transactions (USD/THB), and liaised with external audit teams for compliance.
- **Resource Planning & Media:** Directed high-performance IT workstation procurement, managed cloud/storage infrastructure, and oversaw studio brand media production.

AI-Augmented Product & Systems Architect — 2024 - Present

Home Dashboard & Distributed Studio Ecosystem

- **AI-Accelerated Web Product Delivery:** Engineered requirements, user flows, and testing loops to ship production web apps: **TStudio Web** (Cloudflare Pages), **TimeTracker** (Firebase), and **CMU Exam Prep**.
